

COVETED MIRROR HINTS

In order to keep from revealing too much, you will need to decipher these hints. Substitute the letters shown below to read both questions and hints. A list of key words is shown in alphabetical order. When you want to find out more about something, look up the word. The numbers next to the word are numbers of the questions.

The hints underneath the questions are given in this order: 1. Helpful, but vague. 2. General. 3. VERY Specific.

Some of the things in the keyword list are not in the game, so looking at the list won't give away the whole game.

We strongly advise you not to look at any of the clues about the mirror pieces until you are nearing the end of the game. In the questions, the pieces themselves are described in rather general terms. You might want to decode more than one of the mirror questions before the hints, so you don't find out too much about the wrong piece.

GOOK LUCK!!!
