

FONTPAK™

CHARACTER SET DISKS

FROM
DATA TRANSFORMS
616 Washington Street Denver, Colorado 80203

Fontpak character set disks are companion volumes to the *Fontrix* graphics software package (which is required in order to use them). Each volume contains ten new fonts to add to your library of typefaces. The suggested retail is \$25 per volume. *Fontpak* volumes are available in both Apple and IBM formats on 5¼" floppy disks.

New *Fontpaks* are released on a periodic basis. They range in their thematic organization from standard and decorative typefaces to special applications, including arts, sciences, engineering, design and foreign languages. Most of the fonts comprising these volumes are created by independent *Fontrix* users. If you have an idea for a new font, or have designed a font using *Fontrix* and would like to see it published, contact us at Data Transforms. We welcome your input.

The following pages display samplers of the fonts that are contained on the currently available *Fontpak* volumes. The samplers do not always show all of the characters in each font due to space restrictions. All characters are shown at 66% of actual size.
